Incident Title	Corporate Email Security Alert		
Reported By	Amara Okafor	Role / Department	Marketing Coordinator (Growth & Communications)
Log Date	May 30, 2026		

1. INCIDENT SUMMARY & OPERATIONAL IMPACT

A sophisticated credential-harvesting phishing wave bypassed the standard perimeter filters, targeting several team profiles within the marketing group.

2. ROOT CAUSE ANALYSIS (RCA) PARAMETERS

Malicious domains utilized compromised reputable web hosts, spoofing official business partner signatures to conceal the harvesting links.

3. MITIGATION & RESOLUTION PROCEDURES

Purged the offending emails from all internal mailboxes via global admin scripts and rolled out a forced multi-factor authentication reset for affected accounts.
