

IT OPERATIONS INCIDENT REPORT

MATRIX GROUP GLOBAL LLC • ENTERPRISE INFRASTRUCTURE LOG

Incident ID	INC-2026-104	Severity Level	P1 - Critical
Incident Title	Financial Ledger Database Deadlock		
Reported By	Sonia Patel	Role / Department	Financial Analyst (Finance & Accounting)
Log Date	May 30, 2026		

1. INCIDENT SUMMARY & OPERATIONAL IMPACT

The main accounting ledger system became completely unresponsive during the processing of end-of-quarter variable operational expenditure forecasts.

2. ROOT CAUSE ANALYSIS (RCA) PARAMETERS

Simultaneous execution of a high-volume batch reporting task and real-time transaction postings created an unresolvable database deadlocking condition.

3. MITIGATION & RESOLUTION PROCEDURES

Forced a termination of the stuck reporting threads, ran a thorough data integrity verification script, and scheduled heavy analytics batch processes for off-peak hours.

This file represents an authorized technical record. Post-incident monitoring tasks are automatically activated for the subsequent 72 business hours.
