

IT OPERATIONS INCIDENT REPORT

MATRIX GROUP GLOBAL LLC • ENTERPRISE INFRASTRUCTURE LOG

Incident ID	INC-2026-112	Severity Level	P3 - Moderate
Incident Title	HR Onboarding Portal Error Loop		
Reported By	Jonathan Vance	Role / Department	HR Specialist (Human Resources)
Log Date	May 30, 2026		

1. INCIDENT SUMMARY & OPERATIONAL IMPACT

Newly hired employees reported receiving 500 Server Error pages when trying to complete their benefit enrollment documentation profiles.

2. ROOT CAUSE ANALYSIS (RCA) PARAMETERS

An unhandled null variable in the database user profile module triggered crash loops when checking incomplete address history fields.

3. MITIGATION & RESOLUTION PROCEDURES

Patched the application logic to accept null entries safely during initial entry stages and re-ran the applicant account verification tasks.

This file represents an authorized technical record. Post-incident monitoring tasks are automatically activated for the subsequent 72 business hours.
