

IT OPERATIONS INCIDENT REPORT

MATRIX GROUP GLOBAL LLC • ENTERPRISE INFRASTRUCTURE LOG

Incident ID	INC-2026-114	Severity Level	P3 - Moderate
Incident Title	Kitchen Supplier Order API Dropout		
Reported By	Mateo Silva	Role / Department	Executive Chef (Culinary)
Log Date	May 30, 2026		

1. INCIDENT SUMMARY & OPERATIONAL IMPACT

The automated kitchen inventory terminal could not verify pricing metrics or place bulk ingredient re-orders with external logistics partners.

2. ROOT CAUSE ANALYSIS (RCA) PARAMETERS

An obsolete security protocol used by the supplier API interface was blocked by the corporate web firewall engine.

3. MITIGATION & RESOLUTION PROCEDURES

Created a temporary firewall rule exception specifically for the vendor endpoint while coordinating an interface upgrade with the vendor’s IT group.
