MATRIX GROUP GLOBAL LLC • ENTERPRISE INFRASTRUCTURE LOG

Incident ID	INC-2026-115	Severity Level	P2 - High
Incident Title	Virtual Hearing Room Audio Outage		
Reported By	Thomas Vance	Role / Department	Managing Partner (Legal Counsel)
Log Date	May 30, 2026		

1. INCIDENT SUMMARY & OPERATIONAL IMPACT

A high-stakes digital arbitration session was interrupted when encrypted audio channels failed, preventing court transcription software from working.

2. ROOT CAUSE ANALYSIS (RCA) PARAMETERS

A localized network packet shaping rule throttled encrypted UDP media streams, misidentifying them as unauthorized peer-to-peer traffic.

3. MITIGATION & RESOLUTION PROCEDURES

Whitelisted the virtual hearing server endpoints in the primary network switch profile to restore high-priority audio processing.
