

ASSET MAINTENANCE & ENGINEERING ACTION REPORT

MATRIX GROUP GLOBAL LLC • CORPORATE FACILITIES & EQUIPMENT INFRASTRUCTURE REGISTRY

Work Order ID	MNT-2026-306	Execution Date	May 30, 2026
Target Asset Name	Main Freight Forklift - Unit Green		
Assigned Technician	Marcus Thorne, Operations Manager	Physical Location	Regional Distribution Center, Loading Bay 4

CURRENT MAINTENANCE STATUS: COMPLETED

1. REPORTED ISSUE / DIAGNOSTIC BASELINE FAULTS

Hydraulic lift lines showed localized pressure drops when lifting maximum line haul pallet weights.

2. CORRECTIVE REMEDIATION ACTIONS EXECUTED

Drained the fluid system, replaced worn structural pressure seals on the main lifting mast, and refilled with premium hydraulic fluid.

This document serves as an authorized technical record. All post-maintenance asset metrics have been verified against corporate equipment safety rules and re-logged into the primary operational framework dashboard.
